

The Dutch Bulb Fields Route

With the Bulb Fields Route you will discover the beauty of the 'Bollenstreek' (The Bulb Region). This route lets you enjoy the sweet scent of the colorful bulb fields. This route also takes you to different ditches, canals and forests. It will also give you the possibility to make an outing to the sea or dunes. Depending on the time of year you will take this route you will be able to see crocuses, daffodils, hyacinths, and of course, the tulips.

The roads we have selected for this route are not designed for touristic intentions, therefore we ask you if you want to stop the car to do this in a way you will not hinder any other traffic. In addition, we request NOT to walk in the fields, as this can cause damage to the bulbs.
